(8th grade *only*)

**June 13** - Make-Up Testing & Report Cards

**Every Tues** - [BackPack](#)

[Buddies](#) delivery (See Mr C)

## Message from Dr Perkins, Principal

### End-of-Year Message from Connections

As we wrap up another incredible school year at Connections, we want to remind all of our students to have a safe, restful, and responsible summer. This is a perfect time to recharge, reflect, and continue growing. Whether it's reading a new book, helping at home, picking up a hobby, or practicing kindness, there are countless ways to better yourself and stay on the path of personal growth. Remember, every small step you take over the summer can prepare you for even greater success ahead.

We are extremely proud of all you've accomplished this year. As you return to your base school or take the exciting leap into high school, continue to represent yourself with pride, purpose, and integrity. Be the conqueror you've proven to be—*Lead* by example in your actions, words, and attitude. Once a Connection, always a Connection. We believe in you—now go show the world what you're made of!

## EOG Testing Information: Ms Zehr & Ms Love

### GETTING READY to TEST!

This week students will be reviewing how to:

- take the test on the computer
- choose the best answer using the process of elimination.
- use the calculator for the math EOG

### LATE ARRIVALS

June 10th, 11th, & 12th...**ALL students** must be in the building promptly at **8:00 AM**. We will **start testing at 8:15**. Once testing starts, we can't have any interruptions to the testing environment. If your child arrives at school after testing begins, they will NOT test that day. They will have to sit in a room/office not being used for testing and use one of the retest days to take the test. **Retest days are June 16 and June 17.**

### TIPS TO USE WHILE TAKING THE EOG'S:

- Read all the answers **BEFORE** you choose **ONE!**
- Pace yourself, so you don't run out of time.
- Use test taking strategies.
- Use your scratch paper for math.
- Answer **ALL** of the questions.
- Guess! Don't leave unanswered questions.

### EOG RESULTS

The results from the EOG **do not** keep students from passing to the next grade level. These tests create data to provide teachers with information about the levels of reading, math & science to support student success with academic content.

**EOG BLOCK PARTY:** We are super excited about celebrating the opportunity to show what we have learned by taking the EOGs. We had an amazing EOG Block Party on May 29, hosted by Radio Station 97.5!

**SPLATTER PAINT ART EXPERIENCE:** On June 6, students will have a chance to create unique art pieces using a splatter technique with Flick of the Wrist.
