SCHOOL TO CAREER

School-to-Career (STC) is an initiative and a philosophy. It is a method of delivering curriculum to our students that links classroom knowledge to real life.

Students learn better when information is made relevant, and STC ensures that relevancy occurs by linking schoolwork to workplace realities.

School-to-Career links the world of school to the world of work by supporting school-based activities such as classroom speakers, mentors, soft-skills presentations, and real-world activities and by infusing these into the Common Core through collaboration between members of the business community and classroom teachers.

Mission

The mission of School-to-Career is to prepare every student to make knowledgeable career choices through academic rigor and work-based learning experiences. This requires a systematic, comprehensive, community-wide effort.
