____ Denied

Technology Acceptable Use Policy (AUP)

WCPSS provides its students and staff access to a variety of technological resources. These resources provide opportunities to enhance learning and improve communication within the school community and with the larger global community. Through the school system's technological resources, users can observe events as they occur around the world, interact with others on a variety of subjects, and acquire access to current and in-depth information.

The Board intends that students and employees benefit from these resources while remaining within the bounds of safe, legal, and responsible use. Accordingly, the Board establishes this policy to govern student and employee use of school system technological resources. This policy also applies to any non-students who are expressly authorized by the Wake County Public School System to use electronic information resources, including, but not limited to, Board of Education members, contractors, consultants, and temporary workers. This policy applies regardless of whether such use occurs on or off school system property, and it applies to all school system technological resources, including but not limited to computer networks and connections, the resources, tools, and learning environments made available by or on the networks, and all devices that connect to those networks.

Expectations

Students using the school system's technological resources are responsible for their behavior and communications when using those resources. Responsible use of school system technological resources is use that is ethical, respectful, academically honest, and supportive of student learning. Each student has the responsibility to respect others in the school community and on the Internet. Students are expected to abide by the generally accepted rules of network etiquette. General student and employee behavior standards, including those prescribed in applicable Board policies, the Code of Student Conduct, and other regulations and school rules, apply to use of the Internet and other school technological resources.

Rules of Use for Students

1. School system technological resources are provided for school-related purposes only. Acceptable uses of such technological resources are limited to responsible, efficient, and legal activities that support learning.
2. Students must comply with all applicable laws, including those relating to copyrights and trademarks, confidential information, and public records and must follow any district applicable software application subscription service terms and conditions. Any use that violates state or federal law is strictly prohibited. Plagiarism of Internet resources will be treated in the same manner as any other incidents of plagiarism, as stated in the Code of Student Conduct.
3. No user of technological resources, including a person sending or receiving electronic communications, may engage in creating, intentionally viewing, accessing, downloading, storing, printing, or transmitting images, graphics (including still or moving pictures), sound files, text files, documents, messages, or other material that is obscene, defamatory, profane, pornographic, harassing, or intended to and likely to incite imminent unlawful action, or otherwise prohibited by Board policy.
4. Users must not circumvent network security measures (i.e. firewalls, etc.). The use of anonymous proxies to circumvent content filtering is prohibited.
5. Users may not install or use any Wake County Public School System computer, network, or other technology resource to facilitate the sharing of copyrighted material.
6. Users of technological resources may not send electronic communications fraudulently (i.e., by misrepresenting the identity of the sender).
7. Users may not intentionally or negligently damage computers, computer systems, electronic devices, software, computer networks, or data of any user connected to school system technological resources. Users may not knowingly or negligently transmit computer viruses or self-replicating messages or deliberately try to degrade or disrupt system performance.
8. Users may not create or introduce games, network communications programs, or any foreign program or software onto any school system computer, electronic device, or network.
9. Users are prohibited from engaging in unauthorized or unlawful activities, such as "hacking" or using the computer network to gain or attempt to gain unauthorized or unlawful access to other computers, computer systems, or accounts.

10. Sharing Computer/Application Credentials: Users are prohibited from working under another person's login information (username and password). Users are prohibited from giving their login information to someone else or directing one to share their login information.
11. Users may not read, alter, change, block, execute, or delete files or communications belonging to another user without the owner's express prior permission.
12. Students may not access chat rooms.

Restricted Material on the Internet

The Internet and electronic communications offer fluid environments in which students may access or be exposed to materials and information from diverse and rapidly changing sources, including some that may be harmful to students. The Board recognizes that it is impossible to predict with certainty what information on the Internet students may access or obtain. Nevertheless, school system personnel shall take reasonable precautions to prevent students from accessing material and information that is obscene, pornographic, or otherwise harmful to minors, including violence, nudity, or graphic language that does not serve a legitimate pedagogical purpose. The superintendent shall ensure that technology protection measures are used and are disabled or minimized only when permitted by law and Board policy. The Board is not responsible for the content accessed by users who connect to the Internet via their personal mobile technology.

Parental Consent

The Board recognizes that parents of minors are responsible for setting and conveying the standards their children should follow when using media and information sources. Accordingly, before a student may independently access the Internet, the student's parent must be made aware of the possibility that the student could obtain access to inappropriate material while engaged in independent use of the Internet. The parent and student must consent to the student's independent access to the Internet and to monitoring of the student's Internet activity and e-mail communication by school personnel.

AUP Form must be signed by student and parent, and the signed form must be returned with the Summer School Application. Incomplete/missing forms will result in automatic denial of the application.

Warranty

The school system makes no warranties of any kind, whether expressed or implied, for the technology services it is providing. The school system is not responsible for any damage suffered, including, but not limited to, loss of data resulting from delays, non-deliveries, miss-deliveries, service interruptions, or personal errors or omissions. Use of any information obtained via the Internet is at the user's risk. The school system specifically denies any responsibility for the accuracy or quality of information obtained through Internet access.

I; Children's Internet Protection Act, 47 U.S.C. 254(h)(5); Electronic Communications Privacy Act, 18 U.S.C. 2510-2522; Family Educational Rights and Privacy Act, 20 U.S.C. 1232g; 17 U.S.C. 101 et seq.; 20 U.S.C. 6777; G.S. 115C-325(e) (applicable to career status teachers), -325.4(applicable to non-career status teachers)

The above is a summary, not the full WCPSS Acceptable Use Policy. Students are expected to abide by all aspects of WCPSS Policy 3225/4312/7320 Technology Responsible Use as well as all current WCPSS Board of Education policies and North Carolina and federal laws. If you violate this policy, you will lose your computer privileges for a period of time based on the severity of the violation. If you violate Board policies, state or federal laws, you will face additional and more serious consequences in accordance with those policies and laws.

Academic Consequences of Violations

Losing computer privileges may negatively affect your grades and may cause you to fail a course. If you lose your privileges, you may not use any computer in Wake Forest High School, and **you may not bring a personal laptop to school to use for the duration of the violation. Any AUP violation may result in additional disciplinary action in accordance with the WCPSS Code of Student Conduct and state and federal law, including removal from Summer School classes.**

Wake Forest High School Acceptable Use Policy (AUP) Summer School 2025

Student's Last Name (please print)

Student's First Name (please print)

I have read the AUP and agree to abide by all rules and expectations.

I understand/agree:

- **Technology at Wake Forest High School is to be used for learning, not entertainment.**
- **All work completed will be the student's own work.**
- **The consequences of violations are serious and may lead to failing a course and/or being removed from Summer School.**

By signing below, I agree to abide by the terms of the full WCPSS Acceptable Use Policy.
