Conclusion Worksheet

Write your conclusion including the following things:

- Summarize your project results in a few sentences.
- Include key facts from your background research to help explain your results as needed.
- State whether your results support or contradict your hypothesis. (Engineering & programming projects should state whether they met their design criteria.)
- If appropriate, state the relationship between the independent and dependent variable.
- Summarize and evaluate your experimental procedure, making comments about its success and effectiveness.

•	Suggest changes in the experimental procedure (or design) and/or possibilities for further study.
