Passport to Learning

This summer, Ms. Bunnell, Ms. Green, and Ms. Robertson led an EF Tour to London alongside several RCMMS families and students, exploring the city's history, culture, and global connections. Building on that incredible experience, this year's EF Tour will head to Italy for another unforgettable international learning adventure.

OMCE Summer Institute

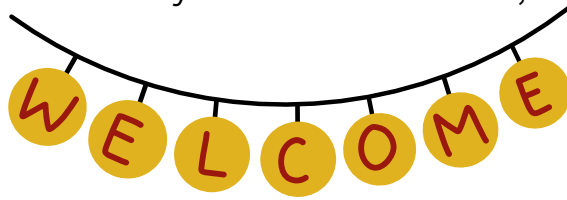

During the summer, our administration, several teacher leaders, and our magnet coordinator, embarked on professional development hosted by the Office of Magnet and Curriculum Enhancement. The 2-day professional development blended inspiration of story sharing and collaboration among educators across WCPSS. They engaged with national education experts, explored best practices in curriculum and instructional strategies, and returned energized and equipped to elevate learning at RCMMS. Their shared experiences will directly inform new initiatives and innovations for the year ahead.

Birds at the Creek

Animal Science got a tech upgrade this year thanks to a generous grant from the RCMMS PTA! Ms. Crofton's class received a BirdBuddy smart bird feeder, which uses built-in technology to capture photos and identify the types of birds visiting our area. Students will use the feeder to observe local bird species, track feeding habits, and explore how technology supports data collection and wildlife studies.

Welcome to Reedy Creek Magnet Middle School! We're excited to have you join our innovative and inclusive community where digital sciences and collaboration thrive. Your talents and passion will help us continue to inspire students to think critically, solve problems, and make a positive impact. Whether you are new to WCPSS, to RCMMS, or to a new role!

Ms. Nunez, Receptionist
Ms. Miller and Ms. Manthea, IAs
Ms. Hamel, Psychologist
Ms. McIlhargey, AP Intern (new role)
Ms. Hampson, Science and S.S. Teacher

Mr. Savo, 6th Grade AP
Mr. Enslen, Science Teacher
Ms. Ganther, 7th Grade School Counselor
Mr. Noland, 8th Grade AP
Mr. Franklin, Healthful Living Teacher

ART

Students in Ms. Girolimon's Visual Composition I art class experimented with neurotrophic painting and value. This project is a mini-exploration into art therapy as a potential future career choice.
